Show

Wine Casino is a combination of wine tasting and amusement at the highest level, which engages all Participants. It is conducted by real wine passionates. The Guests earn points in a few original games. The points can later be changed into exquisite wine served at a professional tasting stand. This combines two elements of a successful event: a lot of fun as well as an educational value. What is important, the Participants do not need to have any specialist knowledge in the field of wine in order to achieve good results in each game.

The Players can choose games they want to take part in. This will make it easy to find their favourite activity. The games themselves base on our big experience in organizing tasting events where contests for Participants are one of the most important parts.

1. Wine Roulette

Subject:

The game is about identifying wine bouquet. The game refers to the aroma memory of the Participants. The Guests earn points for every flavour guessed.

Rules and details:

There are cards with names of flavours and numbers, which refer to a given aroma. Each Participant gets 6 bouquet samples to identify. Each sample has a number. The Player combines one flavour to one card in every round. The dealer reveals the cards. If the numbers on the sample and the card are the same, the Player wins. One table can seat 7 players at one time.

Benefits:

The Participants train memory for flavours. The game is objective and does not need any earlier preparation from the Players. At the same time identifying aroma notes is a very interesting experience.

Duration of one round: 10 minutes (every Participant may take part in more than one round.)

2. Wine Black Jack

Subject:

The game is an imitation of the real Black Jack. The Players, like in the standard game, draw cards and the dealer is their opponent. The game is played at a specially prepared table.

Rules and details:

The Players draw specially designed cards connected with the topic of wine. Each card has its value. The Players have to collect more points than the dealer but not every card brings points. The Participants draw up to 5 times.

Benefits:

The Players learn about the most important wine regions, grape varieties and production techniques. The better region or the more advanced production methods, the higher value of the card is. At the same time, the game is very similar to classic Black Jack thanks to which it is dynamic and exciting from the beginning till the end.

Duration of one round: 5 minutes (each Player should play at least 3 rounds.)

3. Blind „Shell”

Subject:

The game resembles the classic “Shell” where the Participant’s task is to find a ball hidden under one of the cups. In this version the Player has to find white, rosé and red wine using only their sense of smell.

Rules and details:

Each Player gets three black wine glasses. By recognizing flavours, they have to point out where white, rosé and red wine is. The bets are done on a specially prepared board. The results are shown after all Participants bet. Each Player may then verify the result by tasting the wine.

Benefits:

Each Player may find out on their own what classic blind tasting look like and how difficult it is to evaluate wine without using the sense of sight. At the same time the elimination of sight intensifies other senses, which makes the evaluation on the basis of smell and taste a little easier.

Duration of one round: 12 minutes

4. Wine of Ten

Subject:

The game resembles a popular TV “One out of 10” quiz show. The Players answer questions connected with wine. Wrong answers eliminate them from the game. Best three Players meet up in the final.

Rules and details:

The Players answer yes/no questions connected with wine. Good answer makes them choose another person to be asked. Each Participant can make 2 mistakes. The game is stopped when only 3 Players are left. Then they meet in the final during which every Finalist answers 5 questions. Who earns the biggest number of points, wins the game.

Benefits:

The game is a perfect occasion to get acquainted with several dozen curiosities from the world of wine. What is more, the competition is very emotional and nobody is favoured. The questions are surprising even for the wine experts. What is most important here is the intuition.

Duration of one round: 20 minutes

About

We conduct professional tastings and trainings on noble spirits and cigars. We possess specialist and very broad knowledge. What is more, sophisticated and exquisite spirits, as well as tobacco of the highest rate, is our real passion. Events organized by us guarantee the best quality, unforgettable entertainment and a form adapted to individual needs of our Clients.
